Kidslink Learning Strategies...

- To encourage creativity
- To emphasize process
- To provide hands-on experience
- To provide related learning activities
- To use age appropriate materials
- To structure learning relevant to child's world
- To advocate play as the "job" of children and the expression of their work
- To offer free play that facilitates choice, encourages cooperation and problem solving and stimulates social interaction
- To integrate Bible teachings into the curriculum in a loving Christian environment
- To provide the atmosphere for all children to naturally experience God's presence in their daily lives.

Jan. 2012

Classes for 3-4-5 year olds!

"Excellence in early childhood education...
from a Christian perspective."

Following Jesus For Others In Community

2001 N. Maize Road • Wichita, KS 67212

Kidslink

Kidslink Christian Preschool considers the "whole" child. Therefore, our preschool approach is multi-faceted. We desire to meet children's spiritual, intellectual, emotional, physical, and social needs.

Our curriculum includes language and reading readiness, number exploration, sensory activities, story time, science, art and creative experiences, block center, home living and dramatic play, cooking, music, outdoor and gym time, on-campus field trips, health and safety, basic Bible truths, and special events.

A MESSAGE FROM MARILYN UNDERKOFER, KIDSLINK DIRECTOR

Dear Parents,

We care about children! It has been a privilege to provide a Christian preschool for our community for the last twenty years. We are dedicated to educating young children in a safe and loving environment.

Great care is given in the selection of each teacher. All Kidslink staff are committed to a quality program. Children are nurtured, engaged in early learning, and encouraged in social and spiritual growth.

Realizing that children are God's greatest gift, we are aware of the responsibility entrusted to us and with His help your child can grow and develop here.

A child grows spiritually

One of the most important concepts to grasp is that Jesus loves us. Children are introduced to Jesus as their special friend. Bible concepts, Bible stories, and monthly memory verses are a part of our curriculum. We learn that prayer is talking to God just like talking to a friend. Our Bible focus helps us to learn to apply God's word to our every day life. The children are taught that the Bible is God's Word and it is true! Kidslink approaches everything from a Christian perspective so it is interwoven throughout all our activities!

A child grows intellectually

Children are naturally curious about God's creation and the world around them. We introduce and expand their knowledge of letters, numbers, language, shapes, colors, sorting, and matching (just to name a few!). They will explore in a "hands-on" environment with sensory materials because it is our belief that children learn best through play!

A child grows emotionally

Children are encouraged to develop independence; i.e. separating from Mom & Dad, making the transition to school and classroom, managing personal items such as coat, hat, backpack. They encounter opportunities to learn good manners,

develop self-control and to manage emotions in relationship to their peers and teachers. Children learn there is a time to talk and a time to listen. They are encouraged to verbally express ideas and feelings.

A child grows physically

God has given us strong bodies and the ability to do many things. Children need to develop fine motor skills and hand-eye coordination with pencil grip, scissor skills, writing and drawing. They need opportunities to practice large motor skills through group games, hopping, skipping, jumping and playing on our playground!

A child grows socially

Group dynamics are a new concept to many children. Being in a classroom is different than being by yourself. Learning takes place as we explore a new environment and routine. Concepts of what friendship is, how to be a good friend, sharing, taking turns and circle time expectations are social goals. Situations naturally arise where we can talk about God's desire for us. We discuss aspects of being patient, kind, forgiving, obedient, and the happiness we experience when we make the right choices.
